

Summer 2020 Tutor List

To meet with a tutor, please find the course you would like help with and email one of the tutors listed. Tutoring will be online only for summer 2020 and meetings will take place on Blackboard Collaborate on the Student Resource Center. Tutoring in the simulation lab is currently not available, but this will be reassessed regularly throughout the summer. Tutors work with students one-on-one or with groups of up to six students. Tutoring is free for students. Please contact Adrianna Moreno (katsiman@udmercy.edu) with any questions or concerns.
